Overview

How to Read and Reconcile the DOPE Report

Best Practices

Q&A

## **Two fundamental questions to ask each month:**

Q1: Does the payroll that posted to the Labor Ledger match what I was expecting?

Compare your own record to DOPES

Q2: Does the payroll that posted to the Labor Ledger match what posted to Oracle?

Compare DOPES to Oracle expenditures

Prompt	Uses
<b>Employee Name – ID</b>	<b>Search for a specific employee</b>
Department ID – Name	Search for all employees in a department (based on appointment)
<b>Project – Task</b>	<b>Search for all payroll paid from a specific project/task</b>
<b>Project Manager</b>	<b>Search for all payroll paid from a PI's projects</b>
<b>Original Transaction Reference Number</b>	<b>Copy and paste from Oracle Expenditure Details to identify payroll details associated with the expenditure</b>
Fin Unit/Fund/Entity – Code	Search for all payroll paid from certain financial unit
<b>Cost Transfer Code</b>	<b>See when a Direct Retro posted, see the from and to transactions</b>
Job Code – Description	Narrow a search when an employee has more than one job (e.g. GSR-TUIT & FEE REM vs GSR-NO REM)
Compensation Frequency	e.g. Search for faculty summer vs academic salary

**Search by Compensation Frequency**

- Annual
- Biweekly

Salary-Fringe Condensed Summary

Parameter Page

## **Salary Derived Effort Percent**

Only calculated for effort-bearing Earn Codes.

0% for incentives, bonuses, cap gap.

*Known issue: Direct Retros on capped salary do not display correct effort percentage. Use Monetary Amount/Salary cap rate to determine effort percentage.*

## **Salary Total Pay Component Percent**

% of total salary (including incentives, bonuses, cap gap, etc.) paid the transaction represents; total salary % is 0 for bi-weekly accrual or accrual reversal transactions

## **Employee CBR Rate**

CBR rate for the assigned group of the primary job. This may not be the actual rate applied when the position is split funded between MC and campus. The earn code must also be eligible for CBR rate application.

## **Salary cap rate**

Salary cap applied to the funding source. Not necessarily the salary rate for the employee, if the employee's salary is under the cap.

## **Primary Use:** Troubleshooting specific issues

- Identify specific Direct Retros to see how they posted
- Identify specific Original Transaction Reference Numbers
- Identify all payroll charges (salary, benefits, accruals) for a person and period and tie to Original Transaction Reference Numbers to do cost transfers in Oracle
- Troubleshoot discrepancies between Labor Ledger and Oracle, including default project reconciliation  
**COVERED IN DETAIL NEXT WEEK!**

## The key that ties the Labor Ledger (UCPath) to the financial ledger (Oracle)

*NOTE: All individuals for a given chartstring and pay date will be included in a single Original Transaction Reference Number*

# Earn codes impact vacation and benefits assessments

Assessments are based on eligible earn codes and their configurations.

## **CBR**

- Report shows Composite Benefit Rate (CBR) for primary job
- Split funding between Med Center and campus is calculated using each entity's rate and % of total pay.
- Summer Salary group and rate not correct prior to July 1, 2021

## **VLA**

- The cost of accrued vacation leave equals the Vacation Leave Assessment rate multiplied by the gross salary on each eligible earn code.
- Vacation Leave Assessment will continue to be charged against applicable earnings even after an employee reaches their vacation accrual maximum
- There is no Vacation Leave Assessment for employees whose leave entitlement doesn't create a liability at the end of their employment (i.e. if it's governed by a "use it or lose it policy")

## **GAEL & RPNI**

- General Liability (GAEL) and UCRP Supplemental Interest (RPNI) are redirected when the position funding contains a Fund that UCPath recognizes as a federal or federal-flow-through sponsored project

## Use the DOPE with Combined Salary & Fringe, Condensed Column Set, and Employee Summary Report

- This one has everything you need!

## Check your search criteria

- Do not enter too many search criteria
- Use "contains any of these key words"
- Use check boxes only if you need to filter for something specific

- Is it possible to generate the new DOPE report by VC area? **Yes you should be able to filter by entity or finu.**
- The new DOPE report is great, but we need the same information that was on the DOPE report in the old system, the new summary report doesn't have all the same info. We need the old system DOPE report for billing purposes. **Please submit an enhancement request.**
- When looking for the employee, is it possible to have the list be alphabetical? The Employee Name field only picks up the last name, and then the results are not alphabetical, and for someone with a common last name, it takes a long time to find the employee. **Please submit enhancement request.**
- **Recording and ppt will be posted:** <https://ucpath.ucsd.edu/training/review.html>
- Is there a list of payroll connected expenses that are moved when a direct retro is processed. For example NGN, HSIT, GAEL. **BAH report for NGN, GAEL is on DOPEs NGN/HSIT moved in arrears.**
- **CBR Summer salary corrections: Nov 2020, March 2021, and June 2021**
- Sylvia mentioned that some employees have “use it or lose it” and won’t continue to accrue. What is an example of what type of employee is “use it or lose it” **Post Docs, House Staff**

- If I just need to see efforts for RPPR, what is the best report to run? **Use the DOPES**
- The total effort tends to fluctuate for employees that are 1.0 FTE - some months have .98 and other might show over 1.0 FTE. Will this be corrected? **Submit a SNOW ticket with examples.**
- In general, do you know why the amount paid for two consecutive bi-weekly pay periods for an employee can vary by hundreds if not thousand dollars? It can be difficult to anticipate how much will be charged for a pay period. Does the Payroll Projection Report/Personnel Expense Projection Report help with this? **Submit a SNOW ticket with examples.**
- If we have GAEL posted on a sponsored account should we start a ticket? **Submit a SNOW ticket if you do not see the credit, there should have been a correction.**
- We have about 10 employees with UCPATH payroll that hit the DOPES (for May & June 2020), but posted to a legacy/IFIS index. We've been trying to find a way to move them off IFIS and onto Oracle, via a ticket submission about a month and a half ago, but no resolution yet. Any suggestions here on how to move those to correct project numbers? **Oracle Cost Transfer tool is your best option.**

The background of the slide is a light gray desk with a laptop keyboard on the left, a pen in the center, and a pair of glasses at the bottom left. The main logo is centered. It consists of a yellow rectangle on the left containing the letters 'UC' in white. To its right is a blue-outlined rectangle containing the word 'Path' in a blue, italicized sans-serif font. A blue trident symbol is positioned to the right of the 'Path' text, with its base at the bottom right corner of the blue-outlined rectangle.
